TOTAL KNEE REPLACEMENT

Pre-op Clinic Plan

Why Pre-op Education?

OPTIMISED
HEALTH
ASSESSMENT

Get a thorough check-up to understand your overall health. We'll identify and address any existing health issues that might affect your surgery or recovery.

KNOWING THE RISKS

We'll help you understand and manage any potential risks or complications related to the surgery, making sure you're wellprepared.

OPPORTUNITY
TO ADDRESS
CONCERNS

If you're feeling anxious or have concerns, this is the perfect time to talk about them. We're here to provide support and get you mentally prepared for the surgery.

BETTER RESULTS

All these steps add up to better outcomes for you. We want to identify and tackle any challenges beforehand, so your recovery can be as smooth as possible.

Pre-operative optimisation has been shown to improve outcomes after total knee replacement.

What Is Included

INDIVIDUAL ASSESSMENT

Undergo any pre-op consultations as discussed with your orthopaedic surgeon.

GROUP SESSIONS

Three group sessions over six weeks will be included in your preop clinic plan.

EXPERT GUIDANCE

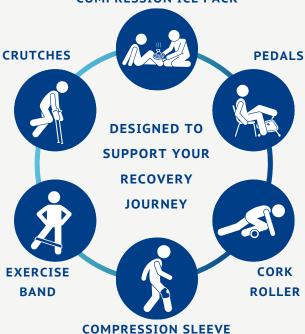

Expert guidance to care for your joints and get the best outcomes post-surgery.

Your Pre-op Kit

COMPRESSION ICE PACK
